SocioAfrica Backs Federal Government Orders to Freeze Osun State Accounts, Labels 'Dancing Governor' Unqualified

Group Pledges Support, Intelligence & Technology to Restore Osun to APC in 2027

ABUJA, NIGERIA – October 26, 2025 – SocioAfrica, a leading pan-African socio-political advocacy and intelligence group, today announced its full support for the Federal Government of Nigeria's recent directive concerning the freezing of accounts belonging to the Osun State Government.

The group, in a press conference in Abuja, delivered a sharp rebuke of the current state administration, critically labelling the incumbent as the "Dancing Governor" and declaring him "**manifestly unqualified**" for executive governance.

Focus on Fiscal Responsibility and Competence

Dr. Kunle Adebayo, Director of Strategy and Intelligence for SocioAfrica, justified the group's stance, citing escalating concerns over the state's financial stability and policy direction.

“The Federal Government's intervention is a necessary safeguard against the continuous fiscal indiscipline and lack of seriousness being demonstrated in Osun State,” Dr. Adebayo stated. “We support this action because it seeks to prevent the further misuse of public funds and restore constitutional sanity, especially regarding local government allocations. Governance demands focus and sobriety, not distractions.”

SocioAfrica emphasized that the consistent perceived focus on trivialities over substantive economic development points to a fundamental deficit in leadership capacity.

Commitment to 2027 APC Restoration

Beyond the immediate fiscal crisis, SocioAfrica announced a strategic commitment to facilitate the return of the All Progressives Congress (APC) to power in Osun State during the 2027 gubernatorial elections.

Mrs. Titi Alao, Head of Technology and Grassroots Mobilization, detailed the forthcoming support plan.

“The 2027 election is a restoration project for the people of Osun. SocioAfrica will deploy cutting-edge **intelligence, strategic technologies, and robust grassroots support** to the APC. This includes data-driven analytics, digital mobilization platforms, and targeted voter education to ensure a focused, capable, and accountable administration is elected to correct the current misrule,” Mrs. Alao affirmed.

The group calls on all stakeholders and concerned citizens of Osun State to unite under the banner of the APC to prepare for a governance focused on infrastructure, economic prosperity, and transparent leadership.
