**The Honourable Minister**

Federal Ministry of Interior  
Abuja, Nigeria

**RE: COMMITMENT TO DELIVER CUSTOMIZED BULLETPROOF VESTS FOR  
POLICE PERSONNEL BY 2026**

Your Excellencies,

Socio Technologies Limited, through its continental initiatives **SocioAfrica** 🌍 and **SocioAsia** 🌍, respectfully writes to formally reaffirm its commitment to **design, develop, and deliver customized bulletproof vests for police personnel by the year 2026.**

This commitment is driven by a clear conviction: **those entrusted with protecting lives and maintaining internal security must themselves be adequately protected.**

Across Nigeria and many parts of Africa, police officers continue to operate under high-risk conditions, confronting armed criminals, terrorists, and violent actors—often with insufficient or outdated protective equipment. This reality exposes officers to preventable harm and weakens operational effectiveness.

Socio Technologies Limited considers this unacceptable.

## Our Commitment

We hereby communicate our intention to support law enforcement through the development of **modern, lightweight, and mission-specific ballistic protection**, designed with the realities of African environments in mind. The proposed bulletproof vests will prioritize:

- Enhanced ballistic resistance
- Improved comfort and mobility
- Customization for different operational roles
- Suitability for local climate and terrain
- Compliance with relevant safety and quality standards

Our projected **2026 delivery timeline** allows for proper research, material testing, design validation, pilot deployment, and scalable production to ensure reliability and officer safety.

## National Security Through Indigenous Innovation

This initiative aligns with our broader vision of strengthening **technological self-reliance, institutional resilience, and public safety**. We firmly believe that indigenous and locally adapted solutions are essential to reducing long-term dependence on external security imports and improving national preparedness.

By protecting police personnel, we contribute directly to:

- Safer communities
- Stronger law enforcement morale
- Improved public trust
- Enhanced internal security outcomes

## Request for Engagement

We respectfully seek the opportunity to engage with the Nigeria Police Force and the Federal Ministry of Interior to explore:

- Technical requirements and operational needs
- Potential pilot programs
- Standards alignment and compliance frameworks
- Areas for structured collaboration

This engagement will ensure that the final deliverables are **fit for purpose, operationally relevant, and aligned with national security objectives**.

## Conclusion

This letter serves as a formal expression of intent and responsibility. Socio Technologies Limited remains committed to **practical, solution-driven contributions** to national development and security.

We appreciate your leadership and service to the nation and look forward to constructive engagement in the interest of protecting those who protect us all.

Please accept the assurances of our highest consideration.

## ISSUED UNDER AUTHORITY:

The House of Medayedupin
