SOCIO TECHNOLOGIES LIMITED

SocioAfrica & SocioAsia

Bringing Africa & Asia Closer for Socio Economic Development

April, 22nd, 2026

FOR IMMEDIATE RELEASE

To: The Office of the National Security Adviser (ONSA); the National Intelligence Agency; the Department of State Services; Relevant MDAs; and Cybersecurity Companies, Ethical Hackers & Professional Communities Worldwide

From: Socio Technologies Limited NG — SocioAfrica 🌍 x SocioAsia 🌍

Subject: Coordinated National Cyber Defense Initiative & Responsible Disclosure Program

Executive Summary

Socio Technologies Limited announces a coordinated, lawful initiative to strengthen Nigeria's cybersecurity posture through

responsible vulnerability disclosure, threat-intelligence sharing, and public–private collaboration. The program invites qualified security researchers and ethical hackers to contribute **within legal authorization and ethical standards** to help identify and remediate vulnerabilities affecting Nigerian systems.

Background

Nigeria’s expanding digital economy is increasingly targeted by sophisticated cyber threats. Protecting critical infrastructure, financial platforms, and public services requires **proactive defense, rapid information sharing, and strong encryption practices** across sectors.

Call to the Global Cybersecurity Community

We invite certified professionals, security researchers, and ethical hackers worldwide to support Nigeria by:

- Conducting **authorized security testing only** (e.g., with explicit permission or within defined scopes/bug bounty programs)
- Practicing **responsible disclosure**—reporting vulnerabilities privately to affected organizations to prevent exploitation
- Submitting **verified, actionable reports** that help improve defenses and reduce risk

Submission Channel:

 ceo@socio.africa

All submissions must comply with applicable laws, avoid unauthorized access, and follow industry best practices for coordinated disclosure. Where appropriate, **recognized contributions may be eligible for rewards**, subject to validation and program terms.

Government & Industry Coordination

We respectfully recommend that national agencies and private-sector partners:

- Establish/expand **coordinated vulnerability disclosure (CVD)** policies across MDAs
 - Enable **secure, real-time intelligence sharing** between agencies and vetted partners
 - Conduct **regular security audits, penetration tests (authorized), and red/blue team exercises**
- Accelerate **incident response** and public communication protocols
- Invest in **capacity building** for Nigeria's cybersecurity workforce

Socio Technologies Limited will support coordination and, where appropriate, facilitate sharing of verified intelligence with international bodies such as INTERPOL and Europol through proper legal channels.

Encryption & Secure Engineering Guidance

We strongly encourage the adoption of modern, defense-in-depth practices:

- **Strong encryption** for data at rest and in transit (industry-standard protocols)
- **Layered security architectures** (encryption + authentication + monitoring)
- **Secure coding standards**, code reviews, and dependency management
 - **Key management best practices** and regular rotation
- Continuous **patching, testing, and verification** to maintain resilience

Position on Malicious Activity

Socio Technologies Limited issues a firm notice: **malicious cyber activities targeting Nigeria will be met with strengthened defenses, coordinated intelligence efforts, and lawful action** through national and international mechanisms. Nigeria's digital ecosystem is being actively reinforced.

Contact & Participation

For responsible disclosure submissions, partnership inquiries, and program details:

 ceo@socio.africa

\$300 reward for valid information x intelligence

About Socio Technologies Limited

Socio Technologies Limited, through SocioAfrica 🌍 and SocioAsia 🌍, advances cross-continental collaboration, digital innovation, and secure, inclusive growth. This initiative reflects our commitment to a **resilient, trusted digital future for Nigeria.**
