August 2026

**Subject: Join the Nigerian Flag Digital Campaign for Unity,
Pride and Progress**

Dear Nigerians, Members of the Nigerian Diaspora, Friends of
Nigeria, and the International Community,

On behalf of Socio Technologies Limited, SocioAfrica and
SocioAsia, we invite you to join our continuing campaign to promote

the Nigerian flag NG across digital devices, wallpapers and profile pictures.

Nigeria is home to hundreds of millions of people and to communities whose influence reaches every continent. Our diversity is one of our greatest strengths, and our national symbols provide an opportunity to celebrate what connects us.

The Nigerian flag represents a nation whose people continue to demonstrate resilience, creativity and determination.

We therefore believe that the digital world should also become a place where Nigerians can proudly express unity and positive national identity.

We encourage Nigerians at home and abroad to display the Nigerian flag on their phones, tablets, computers and social-media profiles and to encourage others to participate.

This campaign is not about division. It is about bringing people together.

It is not about political affiliation. It is about celebrating a shared national identity.

It is not about where Nigerians live. It is about remembering where we come from and believing in what we can build together.

We invite schools, businesses, creators, technology communities, civil-society organizations, Nigerian communities abroad and individuals around the world to support this peaceful digital campaign.

Let us use technology to spread messages of unity rather than division, hope rather than despair, and progress rather than negativity.

We believe that meaningful change begins when ordinary people decide to participate in something positive.

So we invite you to join us now.

Set the Nigerian flag as your wallpaper.

Share the campaign.

Encourage another Nigerian to participate.

Let the green and white colours appear across our digital spaces and remind us that our differences do not have to prevent us from building a common future.

From Lagos to London, Abuja to Atlanta, Port Harcourt to Paris, Kano to Toronto, and from every Nigerian community around the world, let the message travel.

NG One Flag. One People. One Future.

Together, let us use technology to inspire unity and progress.

Together, let's change the world.
